solar hot water.

sunrain by SolarEast – Quality Stainless Steel Solar Water Heating

By combining the quality of stainless steel tank with the performance of the FPC solar collector system, SolarEast has now produced a roof-top thermosiphon solar water heater second to none and affordably priced for all Australian homes. This quality extends to the roof top mounting system constructed from Aluminium and stainless steel making the product ideal for coastal and non-frost applications.

FEATURES AND BENEFITS

- SUS316L Stainless Steel Tank
- Designed specifically for harsh Australian conditions
- Stainless steel and aluminium roof top mounting frame – ideal for coastal areas
- High performance solar collectors with toughened glass to resist hail and other falling objects
- 10 Year tank and 7 year collector warranty (limited)
- Fully approved to Australian Standards
- Roof-top Pitching Frames available for flat roof tops

TECHNICAL DATA AND DIMENSIONS

Model	FPTS200-2D	FPTS300-2D
Storage Capacity (Litres)	200	300
Tank construction	SUS316L Stainless Steel	
Tank Dimensions (mm)	1518 x 550	2250 x 550
Tank Weight – Dry / Full (kG)	44/239	62/360
Outer Shell construction	SUS316L Stainless Steel	
Number of Solar Collectors	2	2
Collector Dimensions / weight (Each)	2,000 x 1,000mm / (38kG)	
Booster Element Rating (kW)	2.4	2.4

Note: Tank 10 years, Collector 7 year replacement warranty, 1 year labour. Valves 2 years.
